The RRF offers the resources to improve public administration performance

These improvements will reinforce public administrations' ability to implement their RRP's effectively

# Recovery and Resilience Facility

## Reforms in the RRP's linked to public administrations

### Reforms to modernise public administrations

- Improve policy-making processes
- Facilitate flexible working arrangements
- implement a better pay system in the public service
- modernise recruitment
- Improve tendering procedures
- Improve public financial management

### Reforms to improve digital public services

- Integrate eID solutions
- Insure the interoperability of various digital public platforms
- Improve the skills and organisational structures for the use and management of data
- Digitalise healthcare systems
- Digitalise justice systems

# Examples of public administration measures across RRP

**Croatian RRP:** reform to establish a high quality and efficient system of local and regional government by incentivising both the functional and actual integration of local government units.

**Cypriot RRP:** reform to enhance the administrative capacity and improve the functioning of public administration for better policy making and implementation by improving its human resources management framework.

**Greek RRP:** reform to improve the public administration's "customer"-oriented services through simplification and improvement of processes, systems enhancements and compliance with European strategies and policies.

# Conclusion

The ongoing digital, demographic and green transitions require public administrations to adapt.

The RRF offers unprecedented resources to Member States to implement reforms needed to improve public administration performance.

# Thank you!
